EN

Washing & maintenance instructions:

Never use hard material to wash or dry the surface. Mild hand-wash only without abrasive detergents and dry with soft towel. Oil axes and moving parts periodically. Check nuts and bolts before and after every ride. Assure handles are tight on the handlebar. Keep this manual with other valuable papers.

WARNING / ATTENTION:

- ✓ Not to be used by children over 36 months or above having the maximum weight of 44.1 lbs (20kg)
- ✓ This ride-on toy has no brakes. Instruct your child how to properly stop the ride-on toy.
- ✓ Continuous adult supervision required.
- ✓ Not suitable for children under 12 months due to minimum balance and coordination required for safe operation.
- ✓ Use with caution as skill is required to avoid falls or collisions causing injury to the user or third parties.
- ✓ Never use in traffic, near motor vehicles, streets, roadways, alleys, swimming pools, hills, steps, sloped driveways, inclines, public roads and highways. Only use on suitable terrain without any obstacles.
- ✓ Only one rider at a time.
- ✓ Not for wet weather, rain, ice or snow.
- ✓ Wear shoes and protective equipment (helmet, gloves, knee-pads, elbow pads etc.) according to local laws and regulations.
- ✓ Adult assembly required.
- ✓ Contains small parts prior to assembly, thus choking hazard to children.
- ✓ Contains potentially hazardous sharp edges and points.
- ✓ Assure no parts are loose prior every ride.
- ✓ Maintain the toy in safe working condition at all times.
- ✓ Do not leave the toy outdoor exposed to the elements.
- ✓ If you find extra items, dispose and keep them away from small children.

WARNING / ATTENTION:

- ADULT ASSEMBLY REQUIRED.
- Chocking hazard to children under the age of 3 years.
- Contains small parts prior to assembly.
- Small components may contain sharp edges and/or points.
- All fasteners should be fully tightened.
- Remove all packaging before giving to your child.

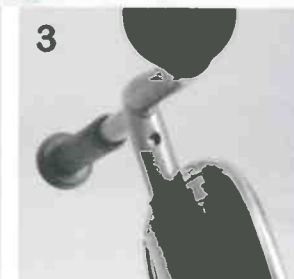

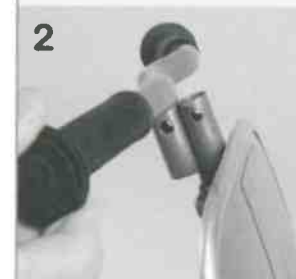

ATTENTION:

The handlebar is inside the main frame. Turn PRIMO upside-down to get the handlebar.

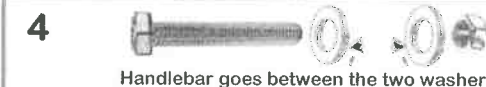

AMBOSSTOYS®

Verify if a spacer is needed by holding the handlebar next to the shaft of the front fork.

Push the handlebar down the shaft of the front fork until the holes align.

Handlebar goes between the two washers

Place washer on bolt (4), then push through handlebar and fork and use the tools to tighten the bolt and nut. **IMPORTANT:** Tighten the nut maximum to avoid wiggling.
